2.5 Elimination Formula

Karate NL will use the following elimination formulas / formats for the various divisions at the Karate NL 12+ & Elite Provincial Tournament

I. Individual Kumite

All divisions with more than three competitors will use a repechage elimination formula. Whereas, divisions with three competitors will use a "Round Robin" formula.

In divisions with exactly four competitors, an additional bout will determine 3rd and 4th place bronze. Elite divisions may also include an additional bout for point ranking purposes, if needed.

II. Individual Kata, and Team Kata Divisions

All non-Elite divisions will use a repechage elimination formula, where competitors are judged using flags. In the event of a non-Elite division consisting of three competitors/teams, a "Double Elimination" formula will be used, ensuring that competitors have a fair opportunity to compete for silver and bronze.

All Elite divisions will use a repechage elimination formula and follow the WKF point system, where competitors are scored using points. A "Round Robin" formula will be applied in the event of an Elite division consisting of three competitors.

In divisions with exactly four competitors, an additional bout will determine 3rd and 4th place bronze. Elite divisions may also include an additional bout for point ranking purposes, if needed.
